Projects

Developer Portfolio Landing Page | Newton School *(link)*   May 2023 - May 2023
Developer Portfolio Landing Page
Project O**bjective**
• I will be building a developer portfolio landing page application using HTML CSS.
Project Context
• A good portfolio page is one of the critical metrics of a good coder as it showcases your previous work and projects, providing potential clients or employers with tangible evidence of your skills and expertise.
• Your portfolio landing page records your growth and development as a developer, allowing you to see how far you've come and identify areas for improvement.
• Through this project, we'll discover a way to build a functional portfolio landing website.

Skills

Computer languages	HTML, CSS, Javascript, Java
Software Packages	Bootstrap

Co-Curricular Activities

I am state cricket player. In 2020 I played from Maharashtra state association.
